

### The most important features

- UV lamp for banknotes and other documents
- UV LEDs for UV features
- WL LEDs for watermarks & silver thread
- Magnetic head for MT/MG inspection
- Magnifier
- Long life compared to units with tubes.

UV lamp with white light and magnetic ink control. Suitable for passport and document verification.

#### **Note for use at counterfeit detection:**

Please note that checking banknotes exclusively on UV basis does not provide reliable protection against counterfeit money. Check out our electronic counterfeit detectors CCE 10 / 20 / 30 for reliable counterfeit detection.
