

The main features

- Mixed value counter for Euro + Turkish Lira
- Including the new 100/200 Euro banknote
- Report display directly in the standard screen
- Counterfeit detection can be activated:
- MG - UV - IR - DD - CS
- Counting speed: 900 banknotes/minute
- **Includes external display** with number of banknotes counted

The CCE 3020 banknote counter offers reliable processing of mixed and sorted banknotes as well as a simple and intuitive user interface. The color display provides all important information at a single view and is clearly laid out. Counterfeit detection can be switched on and off. A major advantage of the CCE 3020 is that it shows the number of banknote values counted directly on the standard display, alongside the total number and total value of the mixed Euro banknotes counted.
